

VINCENT DOLERA

BS INFORMATION TECHNOLOGY

Motivated Information Technology graduate from Ateneo de Naga University with professional internship experience. Passionate about Fullstack Web and Mobile Development, with hands-on expertise in the MERN stack, Next.js, and Expo. Proficient in AI-driven development, using prompt engineering to speed up coding workflows, debug efficiently, and optimize logic. Adept at combining AI tools with modern frameworks and eager to continue building scalable, user-centric applications and expanding my technical skill set.

EDUCATION

High School

STEM - La Consolacion College of Daet
2014 - 2020

College

Bachelor of Science in Information
Technology - Ateneo De Naga University
2022 - 2026

CONTACT

SKILLS

- Organize
- Problem Solving
- Critical Thinking
- Composed

INTEREST

- Video Games
- Model Kit Building
- Reading Manga/Novels

EXPERIENCE

Bald Puppies Solutions Inc.

UI/UX & Fullstack Web/Mobile Developer Intern |

January 2026 – April 2026

- Developed a full-stack mobile application for the fitness sector, converting Figma UI designs into a functional frontend using Expo and React Native.
- Integrated third-party APIs and backend functionality to handle secure transaction requests.
- Leveraged AI-assisted coding tools for rapid prototyping, code refactoring, and efficient debugging, significantly reducing overall development time.

AI Training Presenter

- Served as a resource speaker on Artificial Intelligence, training educators on effective prompt engineering and practical AI integration for daily productivity.

PROJECTS

- **SPARTA (MERN Stack):** Sports management web app with automated bracketing and live scoring.
- **IMSU (MERN Stack):** Event and team management portal for university intramurals.
- **Cat Game (HTML/CSS/JS):** A pixel game like pokemon but with Random Cats(png).
- **Weather App (React/Express):** Real-time weather forecasting and location tracking website.
- **YUMHUNT (Flutter, Dart):** Mobile application specifically made for the ADNU campus to discover local food menus.
